

Turn on your device and connect to the on campus wireless
 “IIT Secure” only.
 AirMedia connectivity will not work with mobile internet

Download and install the Crestron AirMedia App for
 you Windows 8.1+, Mac OSX, Android or Apple iOS
 devices.

Turn on the AV system. Select Laptop, then AirMedia.

With the app installed and running on your device,
 type in the
 Address or IP for the AirMedia.
 This can be found on the Crestron Touch screen or
 on the Projector screen when AirMedia is selected.

The address structure is:
 (Two letter building code)+(Room number)+.am.iit.edu
 Do not Use “HTTP://”

Then type in the four digit security code
 when prompted.
