Touch the Doc Camera button to display images from the document camera onto the projector screen.

Normally the document camera is turned on automatically at system startup but should no image appear, please ensure the document camera is turned on.

Touch the Laptop button to display your personal device onto the projector screen. VGA, HDMI and wireless (Air Media) connectivity are available.

Touch the PC button to display the desktop computer onto the projector screen.

Touch the Blu-ray button to display the Blu Ray/DVD player onto the projector screen.

Normally the player is turned on automatically at system startup but should no image appear, please ensure the Blu-ray player is turned on.

Press the power button on the PC to turn it on. Use the IIT Username and Password to Log in.

Use the buttons to extend or duplicate the PC image.
