Connecting to Wireless at Illinois Institute of Technology

Android devices
Please note that the below screen shots may not match your device exactly due to the variety of Android devices being used today.

1. Ensure that your Wi-Fi is turned on.

2. Select **IIT-Secure** from the list of available wireless networks.

3. Tap the pop notification to **Sign in to Wi-Fi network** or find the icon in the status bar.

Updated May 24, 2018
4. Enter or select the following:
   a. EAP Method: PEAP
   b. Phase 2 Authentication: MSCHAPV2
   c. Certificate Prompt: Do not validate
   d. Identity: enter your full email address
   e. Anonymous Identity: *leave it blank*
   f. Password: enter your password
   g. Press Connect.

5. Complete the following:
   a. Enter your username and then select the correct email domain from the drop down.
   b. Enter your password.
   c. Read “IIT’s Standards of Ethics and Business Conduct” and if you agree to the standards click the checkbox.
6. You will then see the below-shown screen. Your access and network registration is complete for using Illinois Tech’s wireless. Reboot your device.

Congratulations! You have finished registering your machine.

Please remember that you must **REBOOT** in order for your computer to receive a registered IP.

For help registering your computer if you are having difficulty, please call the Support Desk at x7DESK.
