Connecting to Wireless at Illinois Institute of Technology

Apple iPhones and iPads

1. Ensure your Wi-Fi is turned on.

2. Select **IIT-Secure** from the list of available wireless networks.

3. Enter your Illinois Tech **full email address** in the **Username** field and then your **password**.
4. Tap **Trust** in the upper right-hand corner.

5. Complete the following:
   a. Enter your **username** and then select the correct **email domain** from the drop down.
   b. Enter your **password**.
   c. Read “IIT’s Standards of Ethics and Business Conduct” and if you agree to the standards, click the checkbox.
6. You will then see the below-shown screen. Your access and network registration is complete for using Illinois Tech’s wireless. Reboot your device.

Congratulations! You have finished registering your machine.

Please remember that you must **REBOOT** in order for your computer to receive a registered IP.

For help registering your computer if you are having difficulty, please call the Support Desk at x7DESK.

If you need assistance, please contact:
